A New Era and New Possibilities: The Howling Hackett Dreams of X-Forwarded-For & Hijack By Alex Lieverse Recent Posts When I was younger, I found it easy to imagine that the future held great things for us. Maybe it was because of the Star Trek movies, maybe it was because of science fiction novels I'd read, but I was generally happy with my outlook. When I was younger, I assumed that the best aspects of technology would work well and humanity would figure out how to make the rest of the world a safer place. I assumed the future would hold great possibilities and that the threat of death would be a thing of the past. These assumptions were wrong. Hackers have been holding science fiction authors ransom for years. But this year, the two collided in the most significant hacking attack of all time. While the details of the attack haven't been released, both the creators of the assault and the ones that were hacked had a common goal: getting a message across. Hacktivist group "Anonymous" targeted a bank owned by a company it opposes, publicly declaring that it would hold them responsible for any customer related losses. The hacktivist group went on to explain that their actions were intended to send a message to online businesses: "Do not fear the power of righteous hackers!" The message was received loud and clear by the
