The screenshot shows the 'Managed Switch Port Mapping Tool 2.00' interface. The main window displays a table of interface details for a switch7c1leaf (ciscoSystems). The table has columns for Interface Description (ifDescr), Interface Name, Interface Description (ifAlias), Interface Type, VLAN, Status, Speed, Mode, and MAC Address. The status column uses color coding: green for 'Up', red for 'Down', and red with white text for 'Unknown'. The interface names listed are e1 through e8, ch1 through ch8, tunnel1, and vlan 1.
